

Eagle Forage Soybeans use Monsanto's patented Roundup Ready genetics, so all growers of Eagle Soybeans must obtain a Monsanto Stewardship Number (MSN) before any sale of Eagle seeds can be completed.

To obtain your Monsanto Stewardship Number:

1. Go to this website: <https://www.agcelerate.com>
2. Register as a Grower. There's a link in the lower left corner of the home page to get started.
3. When it comes to the part about selecting a dealer, you DO NOT have to pick any dealer. **Just click Continue and pass this step.**
4. When it comes to the time to sign agreements you only need to sign the Monsanto agreement, so just select that one and sign it.

After electronically signing your Monsanto Stewardship Agreement, you can view your Monsanto Stewardship Number by following these steps

1. Log into your Agcelerate account.
2. You should see a Dashboard screen like this one:

3. Click the **Current Agreements** tab to view the agreements you have electronically signed.
4. Assuming the Monsanto agreement was e-signed and went through, you'll see your MSA number on this screen as License Number.

5. If you have any questions, contact the AgCelerate customer service number: 866-784-4630
